

The Michigan Profile for Healthy Youth (MiPHY) was completed by 7, 9, and 11th grade students in Michigan. The results in this report reflect student survey responses from middle schools that voluntarily participated in your county and may not be representative of all middle schools in the county. Characteristics of the participating districts and buildings are as follows:

	MiPHY District Participation		
	# Participating Districts <sup>1</sup>	Total Districts in County	% Participating Districts
Public	11	12	91.7%
Public Districts with Private School	5	5	100.0%
Public School Academy	1	3	33.3%
<b>Total</b> <sup>2</sup>	12	15	80.0%

	MiPHY Building Participation		
	# Participating Buildings	Total Buildings in County <sup>3</sup>	% Participating Buildings
Public	11	17	64.7%
Private	1	8	12.5%
Public School Academy	1	3	33.3%
<b>Total</b>	12	28	42.9%

<sup>1</sup> A district is counted as participating if at least one building takes the survey.

<sup>2</sup> Public districts may be represented in the "Public" and "Public District with Private School" categories, but are only counted once in the total.

<sup>3</sup> Buildings that include 7th grade in the county as identified in the Educational Entity Master.

Students completed an on-line, anonymous questionnaire. Survey procedures were designed to protect the privacy of students by allowing for anonymous and voluntary participation. Local parental notification procedures were followed before survey administration.

Reports on data results are aggregated across district. To preserve confidentiality, names and results of individual districts are not provided in this report.

The Michigan Profile for Healthy Youth (MiPHY) was completed by 7, 9, and 11th grade students in Michigan. The results in this report reflect student survey responses from middle schools that voluntarily participated in your county and may not be representative of all middle school students in the county.

Table with 3 columns: Category, N, Missing, %. Rows include County (7th grade), Grade (7th grade), Gender (Males, Females), Academics (As/Bs, Ds/Fs), Race / Ethnicity (American Indian, Asian, Black, Hispanic/Latino, White).

Students completed an on-line, anonymous questionnaire. Survey procedures were designed to protect the privacy of students by allowing for anonymous and voluntary participation.

Reports on data results are available by risk behavior and domain and are aggregated by each of the above subgroups, if possible. Results of any category are suppressed if less than 10 valid student responses are available and is identified by a "-."

Notes and aggregation information:

N = Number of unweighted valid student surveys. Valid surveys are those containing at least 20 or more complete responses after data cleaning. Missing = number of non-valid student surveys that were removed due to data cleaning rules. % = the unweighted percentage of valid student surveys.

Academics uses student self-report of grades earned in school to estimate academic achievement. Students with high grades are those who report getting mostly As and mostly Bs; students with low grades are those who report getting mostly Ds and mostly Fs.

Race/ethnicity was assessed through use of two questions directly taken from the Youth Risk Behavior Survey developed by the Centers for Disease Control and Prevention. Students can select more than one race option. For this summary, students were classified as American Indian, Asian, Black (non-Hispanic), or White (non-Hispanic) if they only selected the respective group.

## Sexual Behavior

% = unweighted percentage of reported response. (n) = number of students with reported response.

	County <sup>1</sup>	Grade	Gender		Race/Ethnicity				Asian	Academics	
		7	M	F	Black	White	Hispanic	American Indian		As/Bs	Ds/Fs
Percentage of students who have ever talked with their parents or other adults in their family about what they expected them to do or not to do when it comes to sex	62.2% (513)	62.2% (513)	61.6% (250)	62.6% (259)	66.7% (50)	62.9% (364)	53.8% (50)	66.7% (10)	60.0% (6)	63.8% (405)	50.0% (13)
Percentage of students who had ever been taught in school about AIDS or HIV infection	72.1% (596)	72.1% (596)	74.6% (306)	69.4% (286)	77.0% (57)	71.3% (414)	73.1% (68)	56.3% (9)	70.0% (7)	72.8% (464)	65.4% (17)
Percentage of students who ever had sexual intercourse (lifetime)	8.4% (62)	8.4% (62)	11.3% (40)	5.2% (20)	18.2% (12)	5.9% (31)	15.1% (11)	15.4% (2)	0.0% (0)	5.7% (33)	30.0% (6)
Percentage of students who had sexual intercourse for the first time before age 11 years (age of onset)	3.1% (23)	3.1% (23)	4.6% (16)	1.3% (5)	4.6% (3)	2.1% (11)	7.0% (5)	0.0% (0)	0.0% (0)	2.8% (16)	15.0% (3)
Of students who ever had sexual intercourse, percent whose first partner was 3 or more years older	38.1% (24)	38.1% (24)	34.1% (14)	45.0% (9)	30.8% (4)	23.3% (7)	63.6% (7)	-	-	31.4% (11)	-
Percentage of students who had sexual intercourse with three or more people during their life	3.0% (22)	3.0% (22)	5.7% (20)	0.3% (1)	5.9% (4)	1.7% (9)	8.5% (6)	6.7% (1)	0.0% (0)	1.9% (11)	5.0% (1)
Of students who ever had sexual intercourse, the percentage who drank alcohol or used drugs before last sexual intercourse	24.2% (15)	24.2% (15)	15.0% (6)	45.0% (9)	7.7% (1)	27.6% (8)	27.3% (3)	-	-	17.6% (6)	-
Among students who had sexual intercourse, the percentage who used a condom during last sexual intercourse	65.0% (39)	65.0% (39)	65.0% (26)	66.7% (12)	76.9% (10)	60.0% (18)	60.0% (6)	-	-	58.8% (20)	-
